

Hotel de Zink 6am Servers

Thanks you SO much for volunteering for this early morning slot.

The InnVision staff person who sleeps with our guests opens the back door to the passage way by the kitchen at 6am. The first thing to do is make 2 pots of coffee. The small coffee pots are on the counter by the windows. The coffee and filters are with them, coffee labeled and filters should be on top of it. There is a scoop inside.

If you are not bringing the food it will have been put in the refrigerator the night before (hopefully!). Get a cart and put the food for breakfast and the sack lunches on the cart and wheel it into Garden Court (through Fellowship Hall and across the passageway). There are packets of cereal on top of the refrigerator and milk in the fridge. You will need to get plastic bowls and spoons out of the cupboard and drawers in the short passageway going from Fellowship Hall to the passageway to the outside. There will be two tables left up, buffet style, from dinner the night before. You can put the breakfast on there for them to help themselves to.

Try to supervise the lunches to make sure they just get one lunch to begin with and don't take extra sandwiches from other lunches!! We have some hungry guys! If there are extra lunches they may take an extra one or part of one.

Encourage them to clean up after themselves. One of them is supposed to sweep the floor. There should be a mop for this task. The hall is supposed to be clean before they all leave and you are to leave the kitchen spotless also! Any extra food you can take home if you brought it or put it in the refrigerator and it will be picked up and delivered elsewhere later in the day.

Blessings on you for this loving service,
